2020 ANNUAL REPORT

FOREWORD FROM FOUNDER

The year 2020 has passed; some close friends and families of ars86care team have passed away during this pandemic year because of COVID19 or something else. Our condolences for those who grieve because of the loss of friends or family members, may they rest in peace. Our prayers for those who were the victims of the pandemic.

2020 is the year of uncertainty for everyone in our family, community, and globally. Thank you God for keeping us stay existed. Thank you for our foundation's loyal donors and volunteers to keep supporting us, Symphasis foundation based in Switzerland, Wardah beauty cosmetics Indonesia, Moda for Hope and individuals. We would especially like to send our gratitude to Credit Suisse for supporting our foundation through the staff and corporate donation program during the pandemic.

The year 2020 also brings transformation not only to the way we work but also to our programs and activities for the Early Childhood Education. ars86care foundation's COVID 19 program response were delivered in the second semester of 2021 as a program adjustment to maintain self-distancing but keep helping the underprivileged children and families under ars86care school partner (Paguyuban Mitra ars86care) in Demak, Grobogan, Boyolali Central Java, and Gunungkidul Special Region of Yogyakarta.

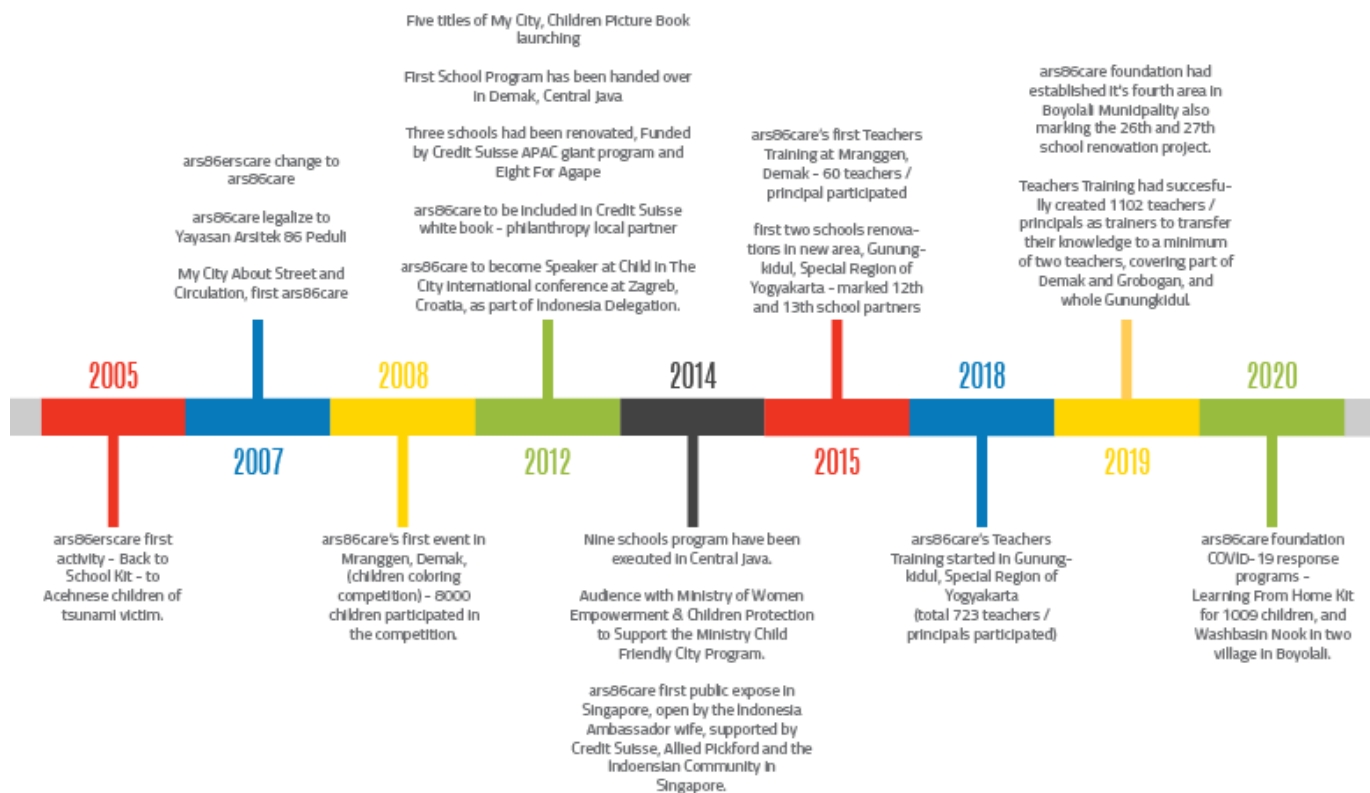

We created and delivered distant learning tutorial in "Yayasan arsitek86 Peduli" youtube channel, so far 101 videos have been published for public. 2,000 + Learning from Home KITS were distributed to children in 33 kindergartens. Also we deliver rotating library program in which every child may read 4 to 5 books weekly at home and then exchange them with a friend at the same school, during School from Home time.

The ways we raise fund are also adjusted to a more digital. Our Crowd funding program "100rb untuk Sejuta Mimpi" are still going on. Recognized as a vetted organization in Global Giving platform, we grab international crowd-funding opportunity as well.

By the end of 2020 we have completed our 33rd school building located in Boyolali municipality in Central Java. We also delivered our consultancy on child-friendly planning and design 21 pre-school facilities for Tanoto foundation, located in DKI Jakarta, Pandeglang in West Java, Kutai Kartanegara in East Kalimantan. COVID19 pandemic may not end yet, but the event is not affecting our spirit in giving back to our community and make good impact to the early childhood education in Indonesia.

Contact detail

Started with a group of Indonesian architects who were concerned about the environment, ars86care foundation is a registered foundation for children, education, and the environment, based in Jakarta Indonesia. Three main programs including **Space to Build, Words to Share, and Value to Do**, ranging from vision to the implementation. ars86care foundation vision is to promote and to create **child-friendly place** in order to achieve a better quality of life for the children.

The foundation has worked with more than 1K volunteers, 1,8K kindergarten teachers, 20K viewer of our online tutorials at you-tube channel, and benefitted more than 100K children and still counting. Five titles of My City Series children picture books on urban ethic have been published while 11,819 books had been distributed throughout Indonesia, while 18 kindergarten libraries had been established in Demak municipality. 33 schools had been built accommodating child-friendly

school principle. Our geographic focus are in Central Java and Jogjakarta where 7 schools located in Demak, 8 schools in Grobogan, 8 schools in Boyolali, Central Java and 10 schools in Gunung Kidul municipality. Followed by 18 teachers training throughout Demak, Grobogan in Central Java and Gunungkidul in Yogyakarta

COVID19 response program has been conducted throughout 2020 and projected to be done also in 2021. ars86care foundation program to synchronize with the global goal to sustainable development aims through providing quality education (goal 4), clean water and proper sanitation (goal 6), reduce the inequality (goal 10), the climate action (goal 13), and the partnerships to achieve the goal (goal 17). Focusing in the **quality early childhood education (#4)**, the demands are still high, while opening to a broader opportunities to bring positive outcomes to social, economy and the environment.

PROGRAM

SPACE TO BUILD

Space-to-Build program provides place for children to learn and play, to grow and develop their full potentials. This program covers physical development in the form of space for children as one step towards environment quality enhancement. Moreover, the program is derived from the fulfillment of children's right based on the United Nation Child's Right Convention.

Space-to-Build program aims to **early childhood education**, where village kindergarten infrastructure provision is

becoming our main program until 2021. Acknowledging children as stakeholders, children are encouraged to participate in every stage of the process, including assessment process, design and construction, up to monitoring and evaluation. Currently, geographic area for Space-to-Build is in one of the most density region in Indonesia, **Central Java** (15 schools in **Demak** and **Grobogan** municipality, and 8 schools in Boyolali municipality), and **Special Region of Yogyakarta** (10 schools in **Gunung Kidul** municipality).

WORDS TO SHARE

Words-to-Share program is aimed to build public awareness on child friendly place and sustainable living concept as a response to today's global change. The target includes decision makers in government, business world, and intergenerational community, especially children in their early age, their parents and teachers. Words-to-Share program includes:

- To create and publish Children Picture Books and any kind of media tools (in the future), such as animation, games, and/or other interactive media
- To conduct research and publish Child Friendly City Guidelines, to advocate

national and local government, to train facilitators and tutors

- To conduct research and publish Green Living Tips and Facts in child-friendly brochures, leaflets, and any kinds of media tools
- To conduct teachers training for early childhood education teachers to elevate their capacity

The activities ranged from advocating, research, children picture books on Urban Ethic publishing and distributing, conducting Green Living Practical Tips and Child-friendly City Physical Development Guidelines research, teachers training and workshops. Words-to-Share Geographic area can be seen on the picture below.

VALUE TO DO

Value-to-Do program enlivens the education process with hands-on experience of specific theme within architecture and green living lifestyle. With “do something” attitude in mind, this program encourages children in active learning to apply knowledge in practice. Value-to-Do program activities include planting trees and medicinal plants, separating trash, creating recycle artworks as well as practicing hand wash, save water, save electricity, and more. Corporate volunteering is also our main program that is interlinked with kindergarten projects under Space-to-Build program.

- Volunteering Event with Graha Decoupage and Ndalem Nitiharjan Guesthouse at TK Pertiwi2 Jelok, Boyolali, **January 2020**
- Learning from Home KITS 1 distributed to 31 schools beneficiaries of ars86care foundation Space to Build program, **June 2020**
- Learning from Home KITS 2 distributed to 31 schools beneficiaries of ars86care foundation Space to Build program, **August 2020**
- Activity books from Astra Graphia corporation have been received and distributed to 33 schools beneficiaries of ars86care foundation Space to Build program, **September 2020**
- Rotating Library distributed and rotated to 33 schools beneficiaries of ars86care foundation Space to Build program, **September to December 2020**
- Vitamin C supplement from ... corporation have been received and distributed to 33 schools beneficiaries of ars86care foundation Space to Build program, **December 2020**
- ars86care foundation yearly meeting via online meeting, December **2020**

Corporate & Foundation Engagement

Credit Suisse Group is a leading financial services company, advising clients in all aspects of finance, across the globe and around the clock. Credit Suisse supported ars86care for COVID19 Response program and Space-to-Build program

The SYMPHASIS Foundation is an umbrella foundation based in Zurich and devoted solely to charitable purposes. It supports and encourages social, charitable, ecological, cultural, and other philanthropic projects. It has no political or religious affiliation. ars86care foundation is supported by the Symphasis Foundation through Space-to-Build program

WARDAH Beauty Cosmetics Indonesia supported Space-to-Build program

The Indonesia Philanthropy Associations (PFI) is a non-profit and independent institution intended to advance the philanthropic sector in Indonesia so that it can contribute to the achievement of social justice and sustainable development. This year, ars86care foundation has joined the associations and actively become the member of education section of PFI.

GlobalGiving has granted ars86care foundation a GG Rewards Leader status based on our foundation active crowd funding effort during 2018, engaging 87 donors from around the globe. GlobalGiving is the largest global crowd funding community, connecting nonprofits, donors, and companies in nearly every country.

Estubizi supported ars86care foundation with office space. Located in golden triangle business area in Jl H.R. Rasuna Said (Kuningan) South Jakarta, Estubizi offers services including training room, meeting services, serviced office, virtual office, and more.

Ars86care foundation has received in-kind donation from Jayaboard in the form of ceiling board, installed at two schools in Boyolali, Central Java. Jayaboard has continually developed innovative wall and ceiling products and systems.

Indonesia Ministry of Women Empowerment and Children Protection has developed Child Friendly City program while ars86care foundation routinely become one of the source organization to develop child-friendly space infrastructure development throughout Indonesia
