Foreword from co-founder

2020 to 2021 were the years of suffering for many organizations in the world, since the COVID19 pandemic was still existed globally. Credit Suisse grant program was a hope in the dark moment and successfully secured many families to survive during the last two years.

The support impacted under privileged communities through ars86care program, benefitted the school communities in Central Java and Yogyakarta region. Although in the middle of the program years we have to adjust the program plan to cope with the prolong pandemic situation, we'd work hard to achieve the goals and make sure the beneficiaries get the best of the program impact.

2021 program achievement including **3 School Buildings, Learning from home KITS for the children, Rotating library for the children, Teacher's Call for Action, Creative Learning Tools tutorials for teachers and parents, and 3 Webinars for the school communities.** COVID 19 response program benefitted **1,500 children, 500 teachers, 3,000 parents or village community directly, and indirectly also benefitted 50 labor workers, and up to 10 small business enterprises.**

Therefore, we would like to send you our sincere gratitude, since the Credit Suisse grant program helped our organization survive in the two years of the pandemic while also made a huge impact for the early childhood education school community in 37 ars86care school partners from Demak, Grobogan, Boyolali, and Gunungkidul municipalities.

Dessi Rajino

COVID 19 Response

Covid 19 Response Program supported children who lost their opportunity to learn and play as usual in their kindergarten, during the pandemic. The program including:

Learning from Home KITS, consisted of children activity books, Learning tools for early childhood children.

Rotating Library, consisted of children picture books that were circulated from home to home reaching out the underprivilege children under ar56care school partners.

School Building provision were also part of the COVID 19 Response program, as well as WEBINAR series and Creative Learning Tools online Tutorial.

The program benefitted 1,200 children, 100 teachers, and 2,400 parents in Demak, Grobogan, Boyolali in Central Java and Gunungkidul in Yogyakarta.

A Call for Climate Action

A Call for Action was aimed at teachers in 33 ar86care foundation school partners to make 20 Creative Learning Tools each school to help the children learn while playing. Total 660 Creative Learning Tools had been made using recycle material and over 1,000 children have been impacted. It was a climate action done by teachers who are mostly female while also supporting their daily learning process. The teacher gained extra income during the hard times in the COVID19 pandemic as well.
